CT DDS ANNUAL REPORT ELECTRONIC SUBMISSION SYSTEM

Overview of the Submission System

- This system was created to provide a website for providers to download and upload the Annual Report and supporting documentation required to be submitted by DDS & DSS each year.
- The system also provides a comparison tool that allows both providers and DDS/DSS to compare two Annual Reports that have been uploaded. The tool generates a report showing differences between the two Annual Reports.

OBTAINING ACCESS TO THE SYSTEM

- Providers must complete the CT DDS Annual Report Submission Login Request Form for each person that requires access to the system to download and upload files.
- The Login Request Form and Instructions are available on the CTAnnualreport.mslc.com website, are attached to today's handout and are also available on the DDS Website. Provider Gateway / Financial Reporting / Annual Reports / FY 2015.
- If your Agency has no changes to personnel that need access or no longer need access to the website for the 2015 Annual Report filing season **NO ACTION IS REQUIRED.**

LOGGING INTO THE SYSTEM

- The first time you log into the system, after being granted access, set a password by going to the website CTAnnualReport.mslc.com. and selecting the Forgot Password? Link below the Login Button.

Memorandum

Re: Public Act 10-179 (Section 37) Implementation (Continued for through SFY 2016)
Capital Repairs and Improvement Requests

Section 37 of Public Act 10-179 (PA 10-179), provides for adjustments to Community Living Arrangements (CLA) rates for the July 1, 2009 through June 30, 2010 and July 1, 2010 through June 30, 2011 rate periods for capital improvements. Specifically, PA 10-179 modified rate provisions applicable to these rate periods as highlighted in bold below:

“For the fiscal years ending June 30, 2010, and June 30, 2011, rates in effect for the period ending June 30, 2009, shall remain in effect until June 30, 2011, except that (1) the rate paid to a facility may be higher than the rate paid to the facility for the period ending June 30, 2009, **if a capital improvement required by the Commissioner of Developmental Services for the health or safety of the residents was made to the facility during the fiscal years ending June 30, 2010, or June 30, 2011,** and (2) any facility that would have been issued a lower rate for the fiscal years ending June 30, 2010, or June 30, 2011, due to interim rate status or agreement with the department, shall be issued such lower rate.”

In order to implement this change, the departments of Developmental Services (DDS) and Social Services (DSS) developed the attached form for CLA operators to complete and submit a request for a rate adjustment for a health and safety related capital project (CLA Rate Adjustment Request).

The CLA Rate Adjustment Request forms should be submitted to:

Sandra McNally, DDS Operations Center
State of Connecticut – Department of Developmental Services
460 Capital Avenue
Hartford, CT 06106

DDS will review requests to determine whether the project meets a health and safety requirement, and DSS will review project cost data and make associated rate adjustments.

10	Company's management. Our responsibility is to express an opinion on these financial schedules and forms based on our audit.				
11					
12	We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those

SUMMARY PAGES

Staff FTE and Wage Expenses

In order to better gather information on staffing, the staffing category has been broken down into two sections:

- ▶ **Direct Care Staff** – staff that work directly with the participants providing face to face supports.
- ▶ **Allocated Staff** – staff that provide non-face to face supports to the program.

SUMMARY PAGES

Staff FTE and Wage Expenses

- The distinction between the direct face to face costs and the indirect administrative expenses is critical in determining the actual costs directly associated with operating a program.

SUMMARY PAGES

STAFF FULL-TIME EQUIVALENT

Full-time equivalent (FTE) is a way to measure a worker's involvement in a program. An FTE of 1.0 means that the person is equivalent to a full-time worker, while an FTE of 0.5 signals that the worker is only half-time.

DDS calculates FTE by dividing the total number of paid hours of all staff positions (i.e.. Direct care staff) in a program by 2080 (40 hours per week multiplied by 52 weeks).

SUMMARY PAGES

DIRECT STAFF

- Face to face supports provided directly to the participant by a staff of the agency are considered Direct Staff.
- Overtime, training, vacations, holidays, sick, and personal time would be included in this expense.
- Managers and supervisors who are directly responsible for the day-to-day operation of one or two CLA's are considered Direct, provided that these positions spend most of their time in the assigned home(s) and, at times, both supervise and provide direct supports to the residences. These are not administrative position.

SUMMARY PAGES

ALLOCATED STAFF

- Administrative and support positions that provide minimal or time limited direct support to participants in a number of programs are allocated staff.
- The staffing costs should be based on an allocation method which is part of the agency's cost allocation plan approved by the Board of Directors.
- Only the time spent providing the minimal or time limited direct support should be allocated to the program.
- Time spent on indirect administrative or support activities should be allocated to the administrative and general cost center.

SUMMARY PAGES

Nursing staff must be broken down into the following categories :

- Direct RN – RN provides direct face to face supports, assessment and treatment to the participant.
- Allocated RN- RN coordinates the health services of all the participants in the program. The duties include delegation of duties, overseeing medication administration and the management of medical appointments. Staff costs must be expensed by an allocation method to the various programs.
- Time spent on indirect administrative or support activities (i.e.. membership on an agency-wide safety committee, etc.) should be allocated to the administrative and general cost center.

SUMMARY PAGES

NURSING STAFF

- Direct LPN – LPN provides direct face to face supports to the participant.
- Allocated LPN- LPN assists in the coordination of health services of all the participants in the program. Staff costs must be expensed by an allocation method to the various programs.
- ▶ Time spent on indirect administrative or support activities (i.e.. membership on an agency-wide safety committee, etc.) should be allocated to the administrative and general cost center.

SUMMARY PAGES

CLINICAL STAFF

- Direct Clinical supports - staff provides direct face to face supports to the participant.
- Allocated Clinical supports – staff coordinates the behavioral or medical supports of participants in the program. This category includes such positions as Behavior Specialists, Behavior Analysts, staff Psychologist, etc. Staff costs must be expensed by an allocation method to the various programs.
- Time spent on indirect administrative or support activities should be allocated to the administrative and general cost center.

SUMMARY PAGES

OTHER ADMINISTRATIVE AND SUPPORT STAFF

Other Administrative and support positions provide minimal or time limited direct support to the residents.

- Direct -Other - staff provides direct face to face supports to the participants.
- Allocated – Other- Staff provides administrative and professional support to the participants. This category includes such positions as Training and Quality Assurance Facilitator, Job Developer, Medical Appointment Coordinator, Area Managers, and Maintenance Staff.

SUMMARY PAGES

OTHER ADMINISTRATIVE AND SUPPORT STAFF

- Administrative and Clerical Support staff would be included in the Allocated category so long as the supports are for the direct benefit of the program.
- Time spent on administrative tasks in support of the overall organization is considered A&G.
- Time spent on indirect administrative or support activities should be allocated to the administrative and general cost center.
- These positions must be identified on the Schedule pages.

SUMMARY PAGES

START-UP COSTS FOR CLA AND CRS

- ▶ The line for Start Up Costs for Opening a new CLA or CRS (Summary Page 16 and 18 line 7.(d.)2 was added to allow auditors to show all expenses related to a CLA or CRS.
- ▶ Since Start-Up has a separate cost settlement process, an offsetting line was added under the non-reimbursable costs (Summary Page 16 and 18 line 12.(b.).

SUMMARY PAGES

START-UP COSTS THAT OVERLAP 2 FISCAL YEARS

- ▶ Start Up revenue must be allocated in the year it was awarded.
- ▶ Start-Up costs must be allocated in the year it was expensed.

SUMMARY PAGES

Non-DDS Funded Participants

- Prior to FY2011, non-DDS funded participants would be automatically factored out of the DDS cost through a formula driven calculation using the total and contracted openings.
- Providers are now required to report the revenue of the non-DDS funded participants as an offset to the total cost of DDS participants.

NON-DDS FUNDED PARTICIPANTS

Non-DDS Funded Participants

Providers will continue to have the option of establishing a separate cost center on the Summary of ICF and Other for all Day and IHS non-DDS funded participants (Page 25).

This is not an option for CLA and CRS settings.

VENDOR SERVICE AUTHORIZATION (VSA)

VSA's are official approval from DDS for a provider to begin to provide additional services (new client, new home, etc.) that are not paid through the contract. They are paid by Fiscal Intermediaries. You must be qualified to provide that service. No services should begin until you have received the VSA from your regional resource manager.

VSA BASED SERVICES

Providers will continue to have the option of reporting VSA based services on the Summary of Fee for Service page (Page 26) or within the cost center where the services were provided (appropriate Summary Page – CCH, IHS or Day).

VSA BASED SERVICES

For all VSA expenses reported, off-setting revenue also needs to be reported.

The VSA Revenue off-set must match the amount listed on the Statement of Revenue Page.

If the expenses are reported in the cost center where the services were provided:

☐ CLA, report off-setting revenue on Summary CLA (Line 18)

☐ CRS, report off-setting revenue on Summary CRS (Line 17)

(VSA expenses and revenue in CLA and CRS are very rare.)

☐ Day, report off-setting revenue on Summary Day (Line 13).

☐ I H S, report off-setting revenue on Summary I H S (Line 14).

☐ CCH, report off-setting revenue on Summary CCH (Line 14).

If the provider chose to report all of the VSA expenses on the Fee For Service page (page 26), then the VSA revenue is reported on line 10 of that page.

REVIEW PROCESS

Cursory Review completed by Myers and Stauffer. Reviews signatures, dates and missing information.

Provider Specialists review openings, utilization, and accuracy of the financial information.

ALL Reviews will all be done electronically

REVIEW PROCESS

- ▶ If the review determines that the Annual Report requires revisions, the DDS reviewer will notify the provider electronically at <https://ctannualreport.mslc.com/> and send a Letter to Amend via email with the issues and concerns needing to be addressed.
- ▶ The provider will upload the revised annual report to the secure website.
- ▶ Once the DDS reviewer approves the amended annual report, he/she will mark it as accepted.
- ▶ NO CHANGES can be made to the Annual Report once it has been accepted.
- ▶ All changes need to be accompanied by an Amended Annual Report affidavit signed by the qualified vendor.

REVIEW PROCESS

Immaterial Differences

In order to reduce the number of amended annual reports due to minor discrepancies of DDS revenue received by the provider, the DDS reviewer will consider differences of less than .25 percent or \$500 whichever is lower as immaterial and it will not trigger the requirement of a revised annual report.
